
	<h2 style="text-align: center;">Developing an academic podcast</h2>	
<p><b>Purpose:</b></p>	<p>To familiarise you with the basic steps involved in developing an academic podcast and to get hands-on experience in producing and recording a short (3-4 minutes) podcast.</p>	
<p><b>Task:</b></p>	<p><b>During the next 30 minutes.</b> Following on from the previous group activity, please identify a suitable topic / theme for an academic podcast. Based on the podcast ‘ten-factor design model’ presented, please write an outline for a short podcast (maximum length: 4 minutes). You may want to use the story-board templates provided to guide your narration. Please record the podcast using a laptop or a voice recorder. Decide how you might advice your students to make use of this podcast; and finally, report to the whole workshop group.</p>	
<p><b>Response:</b></p>	<p>Please take notes of each group’s reflections and be prepared to comment on how the various ‘approaches to developing podcasts’ have informed your practice.</p>
