Here is some errata for my book Foundations of Behavioral Economic Analysis, Oxford University Press, 2016.
I shall keep updating this file as I discover more typos/errors.
Dated Updated: 10.07.2017

1 Corrections to Chapter 2
1. Page 185, fourth line of Example 2.23: The lottery $L_2(z)$ should be

$$L_2(z) = (2400, 0.34; z, 0.66).$$

2 Corrections to Chapter 6
Second line below the only table on the page starting with "and above....": Delete the sentence beginning with "above" and replace it by "a fraction $2\varepsilon$ of individuals with income $y_3 = 50$ are distributed equally between the higher income levels of 75 and 100."

3 Corrections to Chapter 13
1. In Figure 13.2.1, Panel B, when player 1 plays $U$, his payoff should be $-1000$, not 1000 (In the text on p. 938, it says correctly that both players get the inefficient payoff of $-1000$ each).

2. Page 816, line 4: Change the following text "...fail the ‘direct test’ of being in accord with the..." with the following edited text "...fail the ‘direct test’ and are not in accord with the..."

4 Corrections to Chapter 21
Equation (21.57): missing 2 in front of the expression. (21.57) should be $V = 2\lambda(1 - \lambda)|s_1 - s_2|$
