

The Integrated Ocean Drilling Program (IODP) introduces its inaugural lecture series:

DRILLS

Distinguished Researcher & International Leadership Lecture Series

WEDNESDAY 20 FEBRUARY

Drilling into the Memory of Earth

Dr. Yoshiyuki Tatsumi

Director of the Institute for Research on Earth Evolution (IFREE),
Japan Agency for Marine-Earth Science and Technology.

An expert in solid Earth cycles, Dr. Tatsumi will describe drilling operations into the Izu-Bonin Mariana subduction factory and investigations into how continental crust is born.

5.00pm Ken Edwards Lecture Theatre 1

preceded by refreshments in the Geology Department from 4.00pm.

■ All welcome.
