Your research project is one full of data/evidence gathering. Whether you are out in the field or in the lab or at your desk, these activities all fall into the ‘Doing’ phase of your research.

During this period, you may find you want to enhance both your communication skills and work on your professional development. You may explore opportunities to gain workplace experience or decide to work on the structure of your thesis. You may experience some challenges around your resilience and motivation at this stage.

The workshops here (see quick list below) will help you during this phase of your research degree, allowing you to develop these skills and learning ways to cope with the process of writing, stress, and more.

Research Effectiveness
- Outlook 2013 - Take Time to Learn
- Scientific Resilience
- Word 2013 - Long Document Additional Features
- Advanced Literature Searching
- Looking after your Research Material
- Copyright and Your Thesis

Methods and Tools
- Advanced RefWorks
- Advanced Endnote
- A Practical Guide to Analysing Data Using NVivo
- Access 2013 - Build an Access Database
