BIOGRAPHY:

Professor Martin J.S. Dyer MA DPhil FRCP FRCPath.

**Professor of Haemato-Oncology and Honorary Consultant Physician
Director Ernest and Helen Scott Haematological Research Institute,
University of Leicester.**

**Martin Dyer is Professor of Haemato-Oncology and Honorary Consultant
Physician at the Department of Haematology, University Hospitals
Leicester since April 2001. He is also Director of the Ernest and Helen Scott
Haematological Research Institute at University of Leicester since Jan 2014.
He has a longstanding interest in the targeted therapy of leukaemia and
lymphoma. He has been the lead investigator in the development of
several targeted therapies using antibodies and small molecules, including
specific BTK and BCL2 inhibitors. Most recently he has led the first-in-man
study of the first selective BTK inhibitor, ONO/GS-4059**
