

Consumption, Trade and Innovation

Exploring the Botanical Remains from the Roman and Islamic Ports
at Quseir al-Qadim, Egypt
(Frankfurt: Africa Magna Verlag)

Marijke van der Veen 2011

with contributions by:

Alison Cox, Rowena Gale, Derek Hamilton, Jacob Morales and Dirk Übel

Table of Contents

Foreword and Acknowledgements

Chronology Table

1 INTRODUCTION

1.1 Aims and Research Questions

1.2 The Indian Ocean Trade

2.2.1 Roman period trade

1.2.2 Islamic period trade

1.3 Quseir al-Qadim - Myos Hormos/Kusayr

1.4 Data Collection and Methods

1.4.1 Sampling strategy

1.4.2 Identification

1.4.3 Quantification and data presentation

1.4.4 Preservation

1.5 Chronology (*Marijke van der Veen and Derek Hamilton*)

1.5.1 Dating the Islamic assemblage – ceramics, coins and texts

1.5.2 Dating the Islamic assemblage – radiocarbon dates

1.5.3 Chronology of the Islamic assemblage

1.5.4 Summary

1.6 Contexts and Botanical Dataset

1.6.1 Contextual information – Roman

1.6.2 Contextual information – Islamic

1.6.3 The botanical assemblage

2 SPICES – CULINARY AND MEDICINAL COMMODITIES

(*Marijke van der Veen, Alison Cox and Jacob Morales*)

2.1 Introduction

2.2 Spices at the Ports

2.2.1 Pepper

2.2.2 Rice

2.2.3 Coconut

2.2.4 Mung bean

2.2.5 Myrobalans

2.2.6 Ginger

2.2.7 Turmeric

2.2.8 Cardamom

2.2.9 Fagara

2.2.10 Betelnut

2.2.11 Summary: patterns of trade at the ports

2.3 The Luxury of Long-Distance Trade

2.3.1 Spices as preservatives

2.3.2 Spices as commodities

2.3.3 Spices as articles of desire

3 SUMMER CROPS – FROM TRADE TO INNOVATION

(Marijke van der Veen and Jacob Morales)

3.1 Introduction

3.2 Summer Crops at the Ports

- 3.2.1 Rice
- 3.2.2 Citrus fruits
- 3.2.3 Cotton
- 3.2.4 Sugar cane
- 3.2.5 Aubergine
- 3.2.6 Taro
- 3.2.7 Banana
- 3.2.8 Sorghum
- 3.2.9 Pearl millet
- 3.2.10 Cowpea
- 3.2.11 Watermelon
- 3.2.12 Summary

3.3 Dispersal of Summer Crops into the Islamic World

- 3.3.1 Pre-Islamic dispersal
- 3.3.2 Islamic-period dispersal
- 3.3.3 Patterns of dispersal

3.4 Agricultural Innovation

- 3.4.1 Types of agricultural innovation
- 3.4.2 Nature of agricultural innovation
- 3.4.3 Agricultural innovation in Egypt

COLOUR PLATES

4 FOOD AND FOODWAYS – PATTERNS OF EVERYDAY LIFE

(Marijke van der Veen, Alison Cox and Jacob Morales)

4.1 Introduction

4.2 Food Consumption at the Ports

- 4.2.1 Cereals
- 4.2.2 Pulses
- 4.2.3 Fruits
- 4.2.4 Nuts
- 4.2.5 Oilseeds
- 4.2.6 Vegetables
- 4.2.7 Herbs and spices
- 4.2.8 Others
- 4.2.9 Preservation – desiccation versus carbonization
- 4.2.10 Summary

4.3 Animals, Fodder and Dung

4.4 Identifying Foodways

- 4.4.1 Watermelon – fruit flesh versus seeds
- 4.4.2 Citrus fruits – rind versus juice
- 4.4.3 Grapes and pomegranates – fresh versus dried fruits
- 4.4.4 Pulses – cooked dish versus snack food
- 4.4.5 Aubergine – overcoming bitterness
- 4.4.6 Others

4.5 Spatial Distribution of Waste Disposal

- 4.5.1 Cereals – food versus fodder
- 4.5.2 Food in the Roman port (1st-early-3rd centuries AD)
- 4.5.3 Food in the Islamic port (mid-11th-13th centuries AD)
- 4.5.4 Food in the Late Islamic port (14th and 15th centuries AD)

4.6 Patterns of Everyday Life

- 4.6.1 Nutrition and health
- 4.6.2 Eating as practice

5 WOODWORKING AND FIREWOOD – RESOURCE EXPLOITATION

(Marijke van der Veen, Rowena Gale and Dirk Übel)

5.1 Introduction

5.2 Maritime Artefacts

- 5.2.1 Roman ship-rigging artefacts
- 5.2.2 Islamic ship timbers
- 5.2.3 Pegs and wood shavings
- 5.3 Everyday Objects**
 - 5.3.1 Individual artefact classes
 - 5.3.2 Summary
- 5.4 Firewood**
- 5.5 Changing Resource Exploitation**
 - 5.5.1 Ship-building
 - 5.5.2 Wood selection in everyday objects
 - 5.5.3 Firewood
- 6 MYOS HORMOS AND KUSAYR – DIFFERENT WORLDS**
 - 6.1 Commodities and Trade**
 - 6.2 Agricultural Crops and Innovation**
 - 6.3 Food and Consumption**
 - 6.4 Myos Hormos and Kusayr – Different Worlds**
