**CORRE**: A framework for transforming teaching materials into OERs

- **Non-public teaching and learning material**
- **Open teaching and learning material**
- **Open Educational Resources (OERs)**

### CONTENT
- **Gathering**
  - Existing teaching materials
  - Credit weighting
  - Memorandum of understanding

- **Screening**
  - Learning and teaching context
  - Media and format
  - Structure and layout
  - Language
  - Learning design

### OPENNESS
- **Rights clearance**
  - Copyright
  - IPR
  - Licensing

- **Transformation for usability**
  - Decoupling
  - Scaffolding
  - Meshing
  - Sequencing
  - Editing

- **Formatting for accessibility**
  - Conversion
  - Standardisation
  - Metadata
  - Pedagogical wrap around

### REUSE & REPURPOSE
- **Internal Validation**
  - OER project team
  - Academic partners
  - Students

- **External Validation**
  - Students
  - Educators
  - Funders

- **Upload to repository & release**
  - Institutional repository e.g. Plone
  - National Repository e.g. JorumOpen
  - Other e.g. OER Commons

### EVIDENCE
- **Tracking**
  - Downloads
  - Adaptations
  - User feedback
  - Emerging user community
