“Applying Theory To The Real World Of Investigation”

Summary:
Information is the currency of the criminal justice system. However, gathering full and faithful detail at all stages of the investigating process, from the scene of the incident to a full visually recorded interview, is best with difficulty.
As a result, researchers have utilised their theoretical knowledge to inform policy, practice and create evidence-based procedures. This presentation will aim to examine how theory can be translated into impact.

Thursday 17th November 2016 • 15:00-16:00
Lecture Theatre 2, Centre for Medicine
