PROBATE INVENTORIES

The probate inventories, collected for Vol. IV, 1500-1640, are grouped regionally, but none of that has been checked. Those collected for Vol. V are not regionally separated. The inventories are grouped thus:-

A group is labelled region 2, signifying Rossendale, pastoral, for the 1560s, 1590s, 1610s, 1630s.

A group is labelled region 5, representing a central arable region, south of the Ribble, for the 1590s, 1610s, 1630s.

A group is of mixed dates, posing problems and queries.

(The numbering of regions is based on the work of H.B.Rodgers, see bibliography in Volume IV, and also p.81 - J.T.)
