Attenborough Tower

PERSONAL EMERGENCY EVACUATION PLAN
FOR BUILDING USERS & VISITORS

Should an emergency arise where there is a need to evacuate the building, the fire alarm will sound which is a warbling sound. Fire Wardens will also tour the building wearing yellow tabards to assist with the evacuation.

If you have a mobility difficulty it may be helpful for you to know about the following arrangements which will assist you in the event of an evacuation.

(1) Should an emergency arise, please follow the exit signs into the lift lobby at the centre of the building:

(2) You will find a Refuge clearly marked on each landing:

A Refuge is a place of safety where you can wait for assistance.

(3) Once at the Refuge, **Press the Call button on the Green Box** to summon assistance. This will alert the Lead Fire Warden in charge of the evacuation process to your location.

(4) If necessary, Fire Wardens will use a special lift to evacuate you.

If you have any questions about these arrangements, please ask a member of staff.
