Appendix 1: Programme structure (programme regulations)

There are two main pathways through the programme: One for students with well-developed abilities in a language other than English and their native language, and one for students without such abilities. The former group of students take the programme with advanced language skills; the latter group of students take the programme *ab initio*. For example, an advanced student will take Advanced Language in year 1, followed by Post-Advanced Language in year 2. A beginners level student will take Beginners language in year 1 followed by Post-Beginners in year 2. Major students will be taught together in final year language groups. Post-beginner Minor students, who have not gone on a year abroad, will be taught in 'upper intermediate' final year language groups.

Please see the diagrams below.
