A meeting of the LIIPS Medication Safety Group was held on the 5th November. 12 people from 7 organisations attended the meeting, which was chaired by Suzanne Khalid, CMG Director, UHL and LIIPS Core Development Group member. There was a brief presentation by Dr Liz Brewster who discussed the opportunities for learning from high-risk industries using the Safer Clinical Systems approach to make medication management safer. The talk was followed by a lively discussion which touched on a wide range of topics from the challenge of maintaining and capturing institutional memory to the role of patient involvement.
