Resources

Human Factors Common Terms
Human Factors Common Terms is a new interactive publication from the Clinical Human Factors group. It presents a series of common terms which focus on the fundamental human factors and ergonomics principles separated into Organisation and Individual focus areas with specific examples of some of the human factors and ergonomics tools and techniques that are used.

NHS Improvement Directory
The NHS Improvement Directory lists websites that provide online improvement tools, resources or networks on health and social care.

Quick Guides to help with improving quality in health care
The Health Foundation Quick Guides offer an introduction to topics around improving quality in health care. Topics covered include quality Improvement, person-centred care and evaluation. See more
