The Joint Action Plan

“A strategy for project partners to increase regional economic competitiveness – and thus economic development - through research and technological development and innovation activities”
THE TECHNOLOGY HELIX

Transport

Health

Environment
Embedding Collaborative thinking into our organisations

Building the Network By Co-Operation exchange and mutual support
Collaboration
Staff Exchange & Secondment

AND adults TOO!

Intra-Regional

Inter-Regional

THE-ISSUE will develop a framework for secondment and staff exchange between Triple Helix sectors e.g. KTP & RAENG in UK
MORE THAN JUST A CONFERENCE!
THE-ISSUE has a vision for an information exchange portal – where ideas, needs and solutions are shared. Partnerships created. Supply chains created & Projects developed.

Plus a continuous exchange of flow of information & people between regions and within regions. Exchanging ideas and mentoring.

Leading to pre-project study teams.
WP 5 KEY DELIVERABLES

- The JAP
- The ITS SIG building on THE-ISSUE core partnership

Grow and mentor

Advise and inform
