Reflect

Reflect is the University’s lecture capture service. Where you see the Reflect poster, teacher-led activities will be recorded. There will also be a green light at the front of the room to show you recording is taking place.

These recordings aim to supplement your attendance and enhance learning. They will help to support independent study by allowing you to revisit complex ideas, improve note taking, and study at your own pace.

For more information please visit the Reflect website www.le.ac.uk/reflect or speak to your department about how the service will be used on your programme.

Important things you should be aware of:

- Use of your own personal devices for recording is not allowed.*
- You are not permitted to re-record, circulate or copy the recordings.
- Please inform your lecturer if you do not want your contributions to be recorded.
- You might also be recorded for feedback or assessment as part of your degree, and you are expected to take part in this.*
- Recordings are available through BlackBoard once your lecturer has released them, and are only accessible to students registered on your course.

*unless there are exceptional circumstances, such as a recognised disability, and your tutor is in agreement.
